

Global Mobile Ad Network

WHY MOBILE ADVERTISING

Proliferation of smartphone devices and tablets is shifting the way that customers use Internet, making advertising a key part of your marketing strategy.

With **5.3** billion active mobile subscriptions across the globe, mobile is emerging as the most powerful channel to communicate with customers.

- of smarphone users search because of an ad they have seen either online or offline.
- 82% of smartphone users notice mobile ads.
- of smartphone shoppers make a purchase as a result of using their smartphones to help with shopping.
- of those who look for local information on their smartphones taken action within a day.
- notice mobile ads, especially mobile display ads and a third notice mobile search ads.

You have to make sure you can be found on mobile usage as consumers regularly use their phones for various activities like looking for information, browsing web, playing games or taking notes.

All of this transforms mobile into a very attractive marketplace. It represents an opportunity for brands to establish more effective communication strategies within a new medium which provides invaluable insight into consumer behavior.

Direct, personal, and immediate.

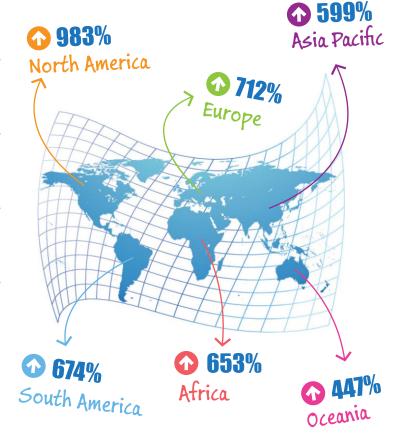

GROWTH OF MOBILE ADVERTISING

- Mobile ad spend worldwide exceeds US \$5 billion in 2012 sky rocketing to \$20.6 billion by 2015.
