>>> REACH

Mobhero delivers the largest mobile reach worldwide, with headquarters in **Texas**, and offices in the US, and India, and servicing most of the countries.

We know how important it is for an advertiser to reach their target market, and we know how to reach these consumers within their mobile universe. That being said, we've built the deepest and broadest mobile advertising network worldwide.

MOBHERO SOLUTIONS

MOBHERO Mobile's core focus and mission is to help advertisers and publishers connect with consumers in very real and personal ways through connected devices. MOBHERO has capabilities across all major mobile application platforms and mobile web.

Mobile Ad Platform

MOBHERO works closely with the premium Advertisers in different countries to provide them with a managed outsource solution for all their Mobile Advertising needs. MOBHERO's Platform enables its Publishing partners to participate in mobile marketing, monetize inventory and directly generate revenue with very little technical recourses and integration required.

Ad Space Management

Within the publisher portal you can generate new Ad Spaces, edit existing ones, and provide more information on you application or mobile site. Learning more about your inventory helps us to supporting your monetization strategy better.

Technology Integration

These are the tools to integrate Mobhero ads into your mobile inventory. Use one of our SDKs (we support all major platforms) for you mobile app, use our Ad Tag or code snippet (PHP or JSP) for your mobile site, or build your own integration based on our OPEN API.

Strategy Development

Successful execution starts with a sound strategy. At MOBHERO, we work with our customers to understand their business needs, goals and targets to create a compelling strategy that recognizes mobile as the growing force that it is.

Mobile Insights

Mobile is one of the most effective marketing channels available to brands. In order to unleash the full power of Mobile, MOBHERO provides (and educates) its customers with the latest trends & insights into the mobile industry.

>> Ad Filters

With our comprehensive filters, you have the ability to control the ads on your mobile site. We provide URL-, Text-, Category- and Language-filters to improve the user experience on your sites or block ads from specific URL's (e.g. competitive sites).

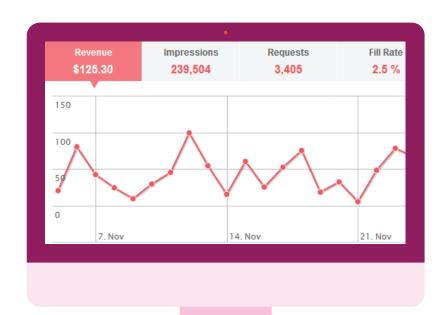

| URL FILTERS | KEYWORD FILTERS | CATEGORY FILTERS |
|---|--|---|
| Prevent ads linking to a specific URL or domain from appearing on your app or site. | Prevent ads containing or exactly matching text or phrases from being shown. | Prevent certain categories of ads from being displayed. |

In general, we advise publishers to set their filters to be as permissive as possible. This maximizes the amount of ads that are available to run on your inventory and ensures you are receiving the highest revenue generation potential we can offer.

PUBLISHER REPORTING

Mobhero provides one of the best reporting and analytical tools which help our publishers consistently improve ROI.

- DAILY PERFORMANCE STATS WITH GEOGRAPHIC DATA & TOP AND BOTTOM PERFORMING ADS
